

#### Pairing instructions

##### T3, T4 and T6 & HR belt

1. Remove the battery from the HR belt.
2. Short-circuit the - and + metal plates in the battery compartment by connecting them with a metal instrument.
3. Select pair (T6) or pair a pod (T3/T4) > pair HrBelt in the training menu of the device (The display reads "Turn on new device" (T6) or "Turn on HrBelt" (T3/T4))
4. Insert the battery into the battery compartment and wait for the acknowledgement.
5. If pairing was successful after 15 seconds the display reads "paired" (T6) or "Paired HrBelt" (T3/T4). Close the battery compartment.
6. If pairing failed and the HR belt was not found repeat the steps 1-4.

NOTE! T3 and T4: It is possible to display either HR or TE in the Training mode. To switch between these options press and hold the alt/back –button for 2-3 seconds. If the TE mode is on, there shows "--", when switching to the HR mode there shows "00" when the device searches for the belt. As soon as it finds the belt, the HR value will show on the display.

##### T3, T4 and T6 & GPS Pod

1. Select in Training menu of T6/T3/T4 -> Pair (a Pod) -> Speed Pod/GPS (The display reads "Turn on new device" or "Turn on GPS")
2. Turn on GPS Pod
3. If pairing was successful, display reads "Pairing complete" or "Paired GPS"
4. If pairing did not succeed and GPS POD was not found repeat steps 1-2

NOTE! The stopwatch must be running in order to display traveled distance. The speed & traveled distance will appear after a maximum of a few tenths of meters of motion, when properly paired.

##### T3, T4 and T6 & Bike Pod

1. Remove the battery from the Bike Pod
2. Short-circuit the - and + metal plates in the battery compartment by connecting them with a metal instrument.
3. Select pair (T6) or pair a pod (T3/T4) > pair Bike in the training menu of the device (The display reads "Turn on new device" (T6) or "Turn on Bike" (T3/T4))
4. Insert the battery into the battery compartment of Bike Pod and wait for the acknowledgement (to activate the Pod move the magnet near it).
5. If pairing was successful after 15 seconds the display reads "paired" (T6) or "Paired Bike" (T3/T4). Close the battery compartment.
6. If pairing failed and the Bike Pod was not found repeat the steps 1-4.

##### T3, T4 and T6 & Foot Pod

1. Select pair (T6) or pair a pod (T3/T4) > pair Foot/Speed Pod in the training menu of the device (The display reads "Turn on new device" (T6) or "Turn on Foot" (T4/T3))
2. Turn the Foot Pod on
3. If pairing was successful, display reads "Pairing complete" or "Paired Foot Pod"
4. If pairing failed and the Foot POD was not found repeat the steps 1-2
